

Mallarapu Yagnesh Naidu

Full Stack Developer

+91-6352485573 | yagneshnaidu28@gmail.com | GitHub | LinkedIn | Portfolio

Professional Summary

Motivated Computer Science graduate proficient in Python, ReactJS, and SQL. Dedicated to building efficient, user-focused applications using solid engineering principles, I am seeking a challenging role to leverage my technical skills and passion for emerging technologies.

Technical Skills

Languages: Python, C/C++

Backend: Django,FASTAPI

Frontend: ReactJS, HTML5, CSS3, Bootstrap, JavaScript (ES6+)

Databases: MySQL,Django ORM

Tools: Git/GitHub, VS Code, Anaconda, PyCharm, Postman, Anti-Gravity,Docker

AI: Langchain,RAG

Education

Parul University| BTech in Computer Science Artificial Intelligence (2021-2025)

Tops Technologies | Full Stack Web Development (2025-present)

Professional Experience

Full Stack Developer Intern Dot2Dot Info-SoftSolutions Pvt. Ltd.(Dec 2024 - Mar 2025)

- Implemented optimized RESTful APIs, improving response times.
- Collaborated in Agile sprints with cross-functional teams to deliver features on schedule.

Python Developer Intern Nirvy Technologies (Apr 2026 - present)

- Implemented optimized RESTful APIs, improving response times.
- Collaborated in Agile sprints with cross-functional teams to deliver features on schedule.

Projects

Axon Hospital Complaint Management System | HTML, CSS, JS, JQuery Link

- Produced a web-based hospital complaint system using HTML, CSS, JavaScript, and REST APIs.
- Improved role-based patient access to monitor complaints .
- Integrated frontend and backend via RESTful APIs ensuring secure, accurate complaint tracking.

AI Powered Text to Video Generation | Python, JavaScript, MySQL, Stable Diffusion Link

- Built end-to-end generative AI pipeline converting text prompts into dynamic video content.
- Developed application integrating Stable Diffusion with RESTful backend services.
- Implemented asynchronous job processing and concurrent request handling for scalability.
- utilizing llama 3 and stable diffusion to generate high-quality video.

Learnova (e-Learning Platform) | NextJS, Django, MySQL, Bootstrap,Docker,Redis Link

- Developed a dual-sided LMS with instructor backoffice and an interactive learner portal.
- Engineered a full-screen player with real-time tracking and a gamified, attempt-based quiz engine.
- Built an administrative dashboard with customizable data grids to monitor enrollment and completion metrics.

Certifications and Training

- Artificial Intelligence (Teachnook Online Training)
 - Full Stack Web Development (Dewtown Online Training)
- Jun-2023
May-2024

Achievements & Hackathons

Odoo x Gujarat Vidyapith Hackathon '26 | Odoo

March 2026

- Developed **Learnova**, an end-to-end eLearning platform featuring instructor backoffices, gamified learner ecosystems, and automated progress tracking using [**Nextjs,Django**] within a 24-hour sprint.
